

# Energy Profiler Online™

*Want to know the inside scoop on your electricity use?*

Energy Profiler Online is a powerful energy management tool that provides you with in-depth information about your business' electricity use. It enables you to make strategic energy decisions that can enhance your bottom line.

**Energy Profiler Online lets you:**

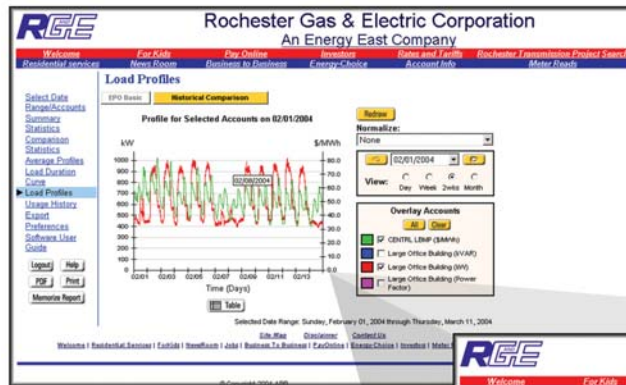

- ▶ Examine usage and demand.
- ▶ Get usage data for any time period.
- ▶ Analyze and compare electricity usage at multiple sites.
- ▶ Establish electricity usage benchmarks.
- ▶ Evaluate energy cost-saving measures.
- ▶ Generate management reports.
- ▶ Download data for further analysis.

## *Using the convenience of the Internet...*

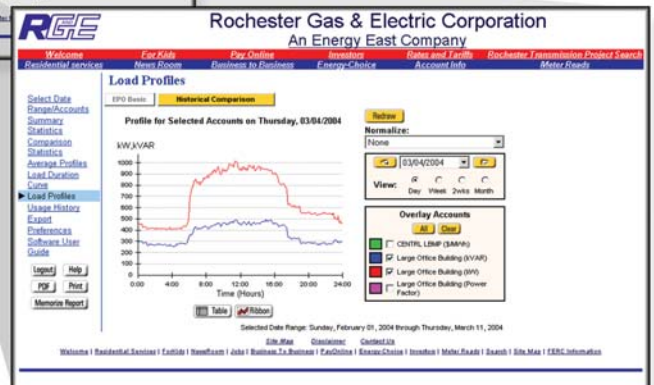

you can access your business' electricity use history, load profiles and many other important statistics. It's easy and it's available 24 hours a day, every day. You can use this valuable information to assist in purchasing your electricity supply and to identify specific ways to save energy.

## *Information is power*

Energy Profiler Online enables you to closely examine how you use electricity and to pinpoint unusual or unneeded loads.

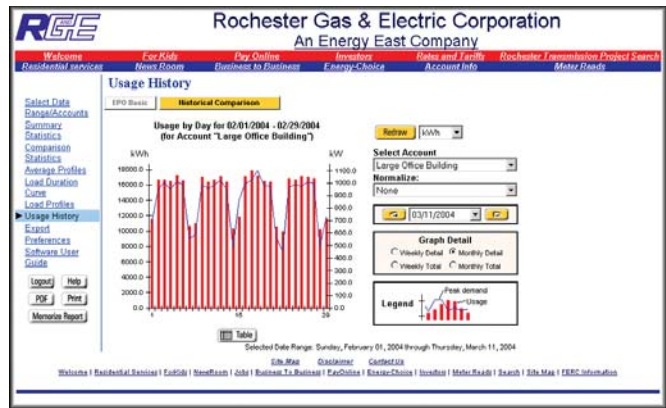

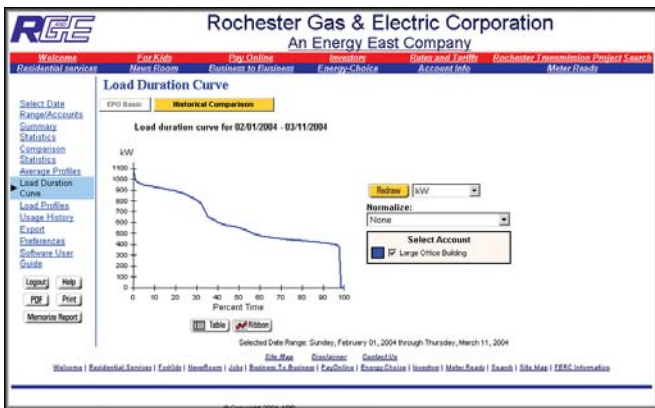

Energy Profiler Online compiles the data and prepares targeted reports, freeing up your time. Use this information for implementing energy-saving projects, or procuring supply.

*powerful information at your fingertips*
