# EnergyLines

May 2018

Save paper — sign up for eBill and view this newsletter online, too!

## Safe, secure, easy access — wherever you go!

Our online payment options give you the ease and convenience of paying your bill from anywhere, anytime.

With **eBill**, you can:

- Receive reminder notifications when your bill is due so you won't miss a payment.
- View 12 months of bills online and print only what you need.
- Combine multiple bills to make one single payment.
- Export your **eBill** data into your own spreadsheet.

Sign up for **AutoPay**, too, and your secure payment will be made on time, automatically each month.

Add **Budget Billing** to the mix and even out your energy costs over 12 months, so you can plan ahead.

Choose one, two or all three of our services to find the combination that will free up your time to do more of things you enjoy this summer, even if it's just relaxing in your favorite chair at the lake!

Enroll today at [nyseg.com](http://nyseg.com).

*NYSEG arborist Artem, left, coordinates work with our qualified Tree Care crews.*

## Tree Care for reliability and a beautiful New York

Trees are an important part of our communities. Each year our team of International Society of Arboriculture (ISA) certified arborists works with qualified contractors to coordinate Tree Care work around thousands of miles of power lines.

We use standards endorsed by the American National Standards Institute and the Tree Care Industry Association to keep trees properly trimmed and healthy so they'll be around for generations to come.

Our arborists, including Artem, offer the following tips for your trees:

- Consider the location before you plant so tree trimming will be minimal during the life of the tree.
- To minimize potential hazards and stay safe, please don't plant trees directly under power lines.
- Consider planting dwarf trees or shrubs that won't grow tall or wide enough to reach power lines.
- Check your trees periodically for lack of water, disease, pests and invasive species.

We're proud of the work our arborists do to provide safe, reliable power to you while respecting the natural beauty of New York at the same time. For more information about our commitment to Tree Care visit [nyseg.com/usageandsafety/trecare](http://nyseg.com/usageandsafety/trecare).

## Sign up now for cool savings

Our **Smart Savings Rewards** program will save you money on cooling your home or your business.

When you enroll in our program, you get an \$85 e-gift card for every qualifying Wi-Fi or smart thermostat that controls your central air conditioning.

Plus you'll have a chance to earn \$5 bill credits this summer when you allow us to make brief, limited adjustments to your thermostat during times of peak electricity demand. Which means you will be doing your part to ensure New York's energy future.

Visit [smartsavingsrewards.com](http://smartsavingsrewards.com) to see if you're eligible for these cool savings!

## How is my electricity generated?

Your electricity supplier is required by the New York State Public Service Commission (PSC) to provide you with periodic environmental disclosure information on fuel sources and air emissions for the electricity supply purchased on your behalf.

The most recent data – in this case for calendar year 2016 – is provided by the PSC and the New York State Energy Research and Development Authority (NYSERDA).

- If you receive your electricity supply from us, your environmental disclosure information is provided in the chart located at the right and on our website at [nyseg.com](http://nyseg.com).
- If you receive your electricity supply from a supplier other than us and your supplier's charges are included in your NYSEG bill, your supplier's environmental disclosure is published periodically as a separate bill insert with your NYSEG bill.
- If you buy electricity from a supplier other than NYSEG, and are billed directly by your supplier, you should receive environmental disclosure information from your supplier.

### Fuel Sources Used to Generate Your Electricity

• January through December 2016  
• Actual total may vary slightly from 100% due to rounding

Biomass	Less than 1%
Coal	3%
Hydroelectric	15%
Natural Gas	43%
Nuclear	33%
Oil	Less than 1%
Renewable Biogas	Less than 1%
Solar	Less than 1%
Solid Waste	2%
Wind	3%
<b>Total</b>	<b>100%</b>

### Air Emissions Relative to the New York State Average

• January through December 2016

For more information on environmental disclosure, please contact the PSC at **1.888.Ask.PSC1 (1.888.275.7721)** or NYSEDA at **1.866.NYSERDA (1.866.697.3732)**

## Your safety is our priority

We care about your safety and want you to enjoy the comfort and convenience that natural gas appliances provide. If used properly, natural gas is reliable, efficient and safe. However, it can also be dangerous. Please review this important information to help keep you and your family safe.

Natural gas is colorless and odorless. For your safety, a distinctive sulfur-like odor, similar to rotten eggs, is added so that you'll recognize it quickly. If you think you smell natural gas...

**Get up, get out and get away! Then call us immediately at 1.800.572.1121 or 911** from a safe location. We'll respond quickly to make sure you and your family are safe.

- **Do not** use a phone, smoke or operate electrical switches or appliances. They may produce a spark that might ignite the natural gas and cause an explosion.
- **Do not** assume someone else will report the condition.
- **Do** provide the exact location, including cross streets.
- **Do** let us know if you notice sewer construction or digging activities are going on in the area.

For more information about natural gas safety, please visit [nyseg.com](http://nyseg.com) and click on **Usage and Safety**, and then on **Be Energy Safe with Natural Gas**.
